

ALEKSEI BYKOV

DATA SCIENTIST | PYTHON DEVELOPER
(JUNIOR / INTERN)

PROFILE

I am a 36-year-old individual with a strong passion for learning and a desire to start a new career in data science and programming. I have always been a natural leader and excellent communicator, and I am skilled at analyzing problems and finding solutions.

In my previous career as a litigation lawyer, I spent 12 years honing my skills in critical thinking and problem-solving, and I am confident that these skills will translate well to a career in data science. I have over 10 years in legal consulting and GR and over 6 years of risk management, due diligence and overall operations.

In addition to my professional experience, I am a proactive and determined individual with a strong work ethic. I am not afraid to take on challenges and am always willing to put in the extra effort to succeed. I am excited to apply my skills and experience to a new field and make a positive impact in the world of data science.
